

II International Conference

A Person in a world of cultural and social change – an interdisciplinary perspective Polish and Israeli Experiences

Patronage: Professor Jacek Witkoś

Vice-Rector for Research and International Cooperation
of Adam Mickiewicz University in Poznań

We have the honor to invite PhD students from Poland and Israel to participate in the II International Conference *A Person in a world of cultural and social change – an interdisciplinary perspective. Polish and Israeli Experiences*

Details

- **date:** 4 July 2016
- **place:** Adam Mickiewicz University in Poznań
- **objective:** the main goal of the conference is the exchange of knowledge and experience in relation to socio-cultural changes happening in the modern world. These changes put the man face-to-face with new challenges – globalization, new lifestyles, educational, media challenges, change of law and politics of social unrest. This discourse seems necessary, because even though the modern world isn't perfect we live in it. We are intent on an interdisciplinary and multidimensional debate considering both the scientific and practical perspective. Thus we are interested in papers presenting: new research results, theoretical and empirical analysis as well as references to professional practice.
- **language:** English
- **application:** the application deadline is: 15 April 2016. Please send your application form (attachment) to: Michał Klichowski (klich@amu.edu.pl) and Mateusz Marciniak (mateusz.marciniak@amu.edu.pl). Until 30 April 2016 the Scientific Committee will decide whether to accept or decline each proposal and inform the applicants.
- **publication:** we anticipate the publication of papers (after positive reviews) in one of the scientific journals of the Faculty of Educational Studies of Adam Mickiewicz University.
