Dear colleagues, dear partners of project LiMa,

Project LiMa is now starting into its final year. We are looking back on three years filled with fruitful collaboration through joint lecture series, guest and collaborative teaching, amazing personal visits, many digital meetups, student exchange, and the Summer School “Teaching for Sustainable Development”.

We would like to warmly invite you to our digital networking event open to colleagues from all of our partner universities. We will reflect on past joint activities, explore funding possibilities, discuss a good practice example and get to know tools for collaboration. During a networking phase, LiMa will create a space for you to discuss your own ideas and plan teaching collaborations.

We invite you to actively shape our network meeting and inspire future teaching collaborations among our partners. Please find the call for project proposals in the link below.

The deadline for registration and the submission of proposals is April 15, 2024.

Please forward this invitation to any colleagues who might be interested in attending.

With warm wishes from Marburg,

Inga Steinbach and Zina Morbach
